PROFESSIONAL SUMMARY

Personable Java bootcamp alumni with a strong background in problem-solving, customer communication, and process optimization. Adept at working collaboratively, prioritizing tasks, and delivering results in fast-paced environments. Eager to apply analytical and technical skills in a software development role, contributing to innovative projects while continuing to grow in the field of technology.

TECHNICAL SKILLS

Java, HTML, CSS, JavaScript, Spring Boot, Vue.js, JDBC, Table Design, SQL, PostgreSQL, E/R diagrams, Agile, Unit Testing (JUnit), Integration Testing, Git, IntelliJ

TECHNICAL EXPERIENCE

- **Vending Machine Application** - created a command line vending machine program that utilized Object-Oriented Programming Principles, Java, and file I/O. The software was able to keep inventory, provide change in coins, keep an input log, and accept user input
- **TENmo Application** - Command line application that allows users to register an account, view current balance, send/receive money to/from users and shows a list of past transfers. Developed utilizing RESTful API, PostgreSQL database, and IntelliJ by following the MVC design pattern and Client/Server architecture
- **Mythic Archive Application** - An engaging web-based application that leverages the Scryfall API to enable anonymous users to search and explore Magic: The Gathering (MTG) cards, view public collections, and use a card randomizer. Built using Vue.js for a dynamic frontend, a Java backend, and a PostgreSQL database, the app allows for users to register, granting them a collection to manage, optionally publish and set a thumbnail to a Magic The Gathering card within their collection.

PROFESSIONAL EXPERIENCE

Pest Control Technician

Dec '22 - Aug '24
